

JUNE 19 2014

VANCOUVER COAL GROUP

NETWORKING EVENING

Guest Speaker: Carl Pollastro

Underground Coal Mining and Western Canada

Mr. Pollastro is currently the Senior Vice President Engineering/ International for Norwest located in the Salt Lake City, Utah office. He oversees the US Norwest disciplines of geology, surface/highwall mining, underground mining, process/facilities design and financial analysis. He has been with Norwest for the past five years. Previously he spent 35 years in the coal industry in a variety of technical services and operational roles with his last assignment being Director of Operations for PacifiCorp's Interwest Mining Company. His entire career has been spent in underground mining with specific emphasis on longwall mining working on a longwall face for the first time in 1972. Since then he has been involved in mining projects around the world. He is a third generation coal miner with two sons continuing that legacy.
