WESTERN CANADIAN COAL SOCIETY NETWORKING LUNCH

Guest Speaker: Kobie Koornhof

What does the recent Run-up in Coal Prices mean to us?

Kobie is a consultant on coal quality and market dynamics to junior Canadian coal companies. He has been in the coal industry since his first job as a Coal Exploration Geologist in the 1970's. Kobie has been marketing and selling Canadian coking coal since joining Luscar in 1994, and has marketed and sold coal from all three western Canadian supply regions - Alberta, southeast BC and northeast BC. He has the dubious distinction of having sold Canadian coking coal at \$29 per tonne FOB, but is quick to add that he has also sold coal in excess of \$300 per tonne. His proudest moment came when a Japanese trading company said of him: "Kobie is a gentle man, but a tough negotiator".
